

How to make your party Mutt-nificent

- Prepare an invite list. Send invitations well in advance to ensure attendance.
- Organize your party. Prepare snacks and drinks. Keep things simple. Focus on the fun of being together with family and friends at the party.
- If possible, allow guests to bring their pets to the party. This adds excitement as companion pets can take part in the festivities.
- Personally invite friends, family, co-workers and other guests to attend your party. It is always a wise idea to over-invite your guests. For example: to guarantee 20 guests attend the pet party, send a minimum of 40 invitations.
- Several days prior to the party, call the guests to remind them of the date. Ask them to bring friends.
- If questions or concerns arise, feel free to contact us we will be happy to assist you.
- *Enjoy the experience! As the host you will take care of providing a pleasant, memorable experience. Hosts are passionate about animals and Pampered Paw Gifts products, and their enthusiasm will shine through every party.*
